

A young child wearing a light blue school uniform, a bright green helmet, and a backpack is riding a black bicycle on a paved path. The child is looking down at the handlebars. In the background, there is a large tree, a grassy area, and a white dome-shaped building.

AMBASSADORS OF SUSTAINABILITY

Fairgreen International School is a pioneering education community, with a mission to embrace and promote sustainability in all its forms. Developed to empower students with a forward-looking education, Fairgreen aims to inspire future generations to make a positive impact on the world as ambassadors of sustainable development.

A School for the Future

Welcome to Fairgreen International School where our challenging academic environment motivates students to be agents of change and helps them progress as solution-minded, critical thinkers. A wide-ranging programme of performing and fine arts, sports, and extracurricular activities complements our academic offering. This whole-child approach, with differentiated teaching and learning, promotes individual students' development and wellbeing.

From our architecture to our student-centred International Baccalaureate (IB) curriculum, sustainability is at the heart of our school, and weaves through our educational program, teaching students to examine and influence the environmental, social and economic impact of our collective actions, both current and future.

At Fairgreen, our educators integrate both passion and talent to inspire our students. Every day students are welcomed into a happy, diverse classroom; supporting academic achievement in everything they do. Teachers here utilise the latest and most effective teaching methods, advocating the responsible use of technology while inspiring curious inquiry. Our sustainable way of learning ensures students understand and demonstrate values of international mindedness, mutual respect, civic responsibility and global citizenship. Student voice is at the centre of our community, inspiring a hunger for learning and a lifelong commitment to social responsibility.

Our Mission

At Fairgreen International School in Dubai, our mission is to provide an exceptional international education that embraces sustainability in all its forms.

Our Vision

Our vision is to be an exemplary learning community that promotes purposeful and innovative solutions for a sustainable world.

Innovation and Achievement

Fairgreen's educational programme is driven by academic achievement and innovation and is delivered by an exceptional team of international educators. Our challenging programme seamlessly integrates an intensive sustainable education curriculum to create a truly unique school in Dubai.

Our curriculum will feature hands-on project-based learning, research-supported teaching methods, technology initiatives and worldwide partnerships with leading experts and organizations in sustainability-related research and practice.

International Baccalaureate Programme®

Fairgreen follows the International Baccalaureate® (IB) continuum of international education, a distinctive program for 3-19 year olds, known for its academic and personal rigour. The IB continuum includes the Primary Years Programme (PYP), Middle Years Programme (MYP), Diploma Programme (DP) and the Career Related Programme (CP)*. All programmes encourage academic rigor, deep inquiry and persistent curiosity, developing children into young adults

who are caring, courageous risk takers and critical thinkers. An IB education inspires young people to become lifelong learners, using their energy, conviction and positivity to engage with increasingly complex and interconnected global challenges.

Driven by a commitment to multilingualism and international mindedness, and positive action through service in the local community and beyond, students learn that each one of us is responsible for the rest of us, and this understanding is a necessary basis for progress toward a more just and peaceful world.

*Fairgreen International School will work through the application phase for PYP and MYP candidacy in the pre-operational year and will be ready to deliver both programmes in September 2018, followed by IB DP and IB CP in subsequent years

"The IB has made me think completely differently about the world - I link everything together like a big spider web, finding connections between topics where I thought there were none. I see the world through different eyes".

~ Samantha Galea, Esol Graduate

Outstanding Facilities

Our purpose-built campus is designed with outstanding learning facilities. Solar powered classrooms, wind-tower-cooled play areas, tech labs, maker spaces, and sports facilities that include a swimming pool and soccer pitch, are just some of the features available to Fairgreen students.

Food technology labs and urban farming facilities provide opportunities to learn about sustainability. One of the city's bio-domes is dedicated to our Health, Wellness and Learning Centre, and students can access the city's Equestrian Centre and biking and jogging tracks.

Esol Education

Fairgreen International School in Dubai is established by Esol Education. With a heritage of over 40 years of educational excellence, Esol currently serves over 10,000 students in international schools across Europe, Middle East and East Asia. Esol Education is committed to providing an inspiring and well-rounded education, building solid academic foundations for future success while igniting imaginations, fostering critical thinking, and shaping engaged lifelong learners. Fairgreen benefits from the richness of the Esol network, including international accreditation from leading bodies, university recognition, a global alumni network, and professional qualified teachers.
