

To enter for this Award, please complete the following:

- (1) We believe that all schools in the UAE should have a transparent and published bursary programme to assist parents in temporary need of assistance following, for example, the financial impacts of redundancy. Equally, we believe that all schools should have a scholarships programme. To enter for this award, please provide detailed information on how you currently, or have historically, and ideally plan to, assist parents through bursaries, and how you have, do, or plan to, support a scholarships programme. Provide other examples of how you are a school that cares for parents, and so their children, when it matters most. We know that many schools did just this during Covid-19. We are looking for schools that are willing to put their heads above the parapet here – *we know it is not easy*. We are looking for supporters of this initiative to improve education in the UAE.
- (2) As part of the following application, you will strengthen your case considerably by *sending the following survey links to your students, teachers and parents*, asking them to independently provide feedback on your school as part of your entry to the Top Schools Awards 2023-24.
