

To enter for this Award, please complete the following:

- (1) Please provide a comprehensive and passionate explanation of how the teaching of Environmental Science and Sustainability at your school excels in its provision for all children. There is no limit on the number of words you can write. Your explanation should include both embedded and separate high resolution, captioned photographs and may include video. One paragraph or more should detail how Environmental Science engages with broader school life and the different departments of your school. The greater the level of detail and evidence of commitment to, and achievement in, Environmental Science and Sustainability, the easier it will be for Judges to evaluate your submission.
- (2) Please provide 3 case studies of children and their individual journeys in Environmental Science and Sustainability at your school. Please include photos and video as available. Part of the story for each should have taken place in the period 2021-2023. We are particularly interested in problem solving and you may wish to provide examples of projects related to environmental Science, the issues/problems to be solved, and their outcomes. Please make clear what we may publish.
- (3) Please provide an inspirational quote from the Head of Environmental Science and Sustainability on the centrifugal importance of Environmental Science in the education of children. Please provide a photograph of the Head of Environmental Science, a full bio and details of why they chose to dedicate their lives to its teaching.
- (4) Provide a quote from the Principal on *why STEAM* is so important in your school, paying particular attention to Environmental Science and broader issues related to climate, sustainability and caring for the planet.
- (5) As part of the following application, you will strengthen your case considerably by *sending the following EDSTATICA™ survey links to your students, teachers and parents*, asking them to independently provide feedback on your school as part of your entry to the Top Schools Awards 2023-24.
 - Teacher survey: <https://whichschooladvisor.com/uae/surveys/the-teacher-survey>
 - Parents survey: <https://whichschooladvisor.com/uae/surveys/school-survey>
 - Student survey (Grade 10-12/Year 11-13): <https://whichschooladvisor.com/uae/surveys/thestudent-survey>

The statistical results of these surveys are valued, shared with judges and used in our decision making.

Submissions should be completed and returned to us at SCTSA@schoolscompared.com no later than 15th February 2023. Please head your email with your school name and the name of the Award applied for.
